Signed By: TAHIRIH.LINZ@NAVY.MIL

Hi Lawrence,

Approximately 5 days after we released our Final FOST, the WB released a letter rescinding their December 2020 NFA letter, which we referenced in the Final version of the FOST. In fact, reference to the NFA letter was the only changes we made between the draft and final version.

The same day we received the rescission letter, I had a phone convo with the WB PM and she requested that we revise to the FOST to remove the NFA letter since it was no longer valid. See attached transmittal letter that documents this conversation as the reason for the revised final document.

For changes between this version and the last one you signed, please see pages 3-2 and 6-1.

Thanks!
